AMUSEMENTS.

GRAND OPERA-HOUSE.

Mr. John McCullough, the eminent American tragedian, commenced a week's engagement at the Grand last night, the play being "Othello," with Mr. McCullough himself as the "dusky Moor." His rendering of the character was a masterpiece of art that will long live in the memories of Shakespearean scholars who witnessed it. The part of "Iago" was played by Mr. Chas. Barron, a very accomplished actor, and the remainder of the support, also well rendered, was by the Olympic Company. Mr. McCullough's "Othello" is a character that impresses itself in the mind and memory of every one that sees it. It is an earnestly touching rendering of the role, widely different from all others that we have seen and more nearly meeting a common sense idea of what Shakespeare intended to portray. It is the rendering of a scholar who has studied the "Moor," and an actor who is able to give form to his conclusions. Mr. Barron's "Iago" was what might have been expected of an actor of such ability and reputation. Of the regular company, Miss Tracey's "Desdemona" was especially fine, and all the other parts were well played. Same bill to-night, with Mr. McCullough as "Iago" and Mr. Barron as "Othello." Wednesday matinee, "Lady of Lyons." Wednesday evening, "Damon and Pythias." Thursday, "King Lear." Friday and Saturday, "The Gladiator." Saturday matinee, "Virginia." Seats may be secured at Hawley's.

THE FRODOLES AT PIKE'S.

The brightest, prettiest and funniest entertainment of its class that has been given in this city since the Vokes took the country by storm was that given by "Elizeth Weatherly's Frodoles" at Pike's Opera-house last night. The company consists of six members, each one a star in the line of business play. No one without going can get any correct idea of how much genuine fun six people can make in a single evening. Miss Elizeth Weatherly is a great favorite here. She appeared to excellent advantage last night. Mr. N. C. Goodwin, Jr., is a host in himself. His "Piggy" Pyncheon Whiffles ("Piggy" for short), is immense beyond being described. Miss Elma Delaro is a stranger here, but she made a good impression. She sings well, and on one gave "Comin' thro' the Rye" very sweetly. Harry Phillips made a "Major Bangs" that was a big feature in the piece. He is a fine actor and is always warmly received. Mr. Stanton and Miss Jennie Weatherly were fully up to the remainder of the troupe, and more in their praise could not be said. Miss Jennie is "The Fairy" made a big hit in an apparently unimportant part. Her first appearance in this part and hasty exit made the audience laugh till tears were rolling down the cheeks of half the people present. Altogether it was an immensely funny and entirely original entertainment, and no one will go without being delighted. Every night this week and Wednesday and Saturday matinees.

AT THE WEDNESDAY MATINEE 25 CENTS ONLY WILL BE CHARGED TO ALL PARTS OF THE HOUSE.

Mr. Harvey, the scenic artist, deserves great credit for the beautiful manner in which he did his part. The scenery appointments and stage fittings were all very beautiful and accorded nicely with the play.

The action was to recover damages for failure to deliver within reasonable time eight hundred barrels of flour. In the Court of Common Pleas judgment was rendered for the defendant. reasonable time, and the right of action will continue for 15 years.

M. Werk & Co. against A. Armbrust. The original suit was to recover \$10,000 for being scalded by hot fat. Armbrust recovered a verdict of \$500. It is now sought by Werk & Co. to reverse the judgment on the ground that it was against the law and evidence. This Court affirmed the judgment.

A. J. Cunningham against W. S. Cappel. County Auditor. This was an application for a mandamus to compel the Auditor to draw his warrant on the County Treasurer to allow the plaintiff \$20 per day as Assessor in the Eighth Ward instead of \$10 per day. The Court decided that the law of April 6th, 1870, was repealed, and that the sum allowed was \$2. The mandamus was therefore refused.

FACTORY FACTS.
